The Boy Scouts.

Wouldn't it be a fine thing if Baxter Springs could organize its youths into a company of Boy Scouts. We doubt if there is a person in Baxter Springs who was not impressed with the good qualities of the lads, all of them, in the company of Scouts from Parsons who spent two weeks camping at Reunion park and frequently came into town while here. Erect and alert of body, bright eyed and well mannered, each lad showed himself every inch a gentleman and left an impression on the youths of our town. It also impressed the parents, for there was a contrast; not that our lads are so bad but they are without the guidance and discipline so necessary in the development of a boy. That is the part the Boy Scouts organization fills, the one which the average parent thinks he is too busy to attend to, or is too indifferent. The Boy Scouts is not a militant organization. The boys are taught to be kind and peaceable, to be thoughtful of the rights of others and to use force only as a last resort. They are given military training for the development and care of the body and direction of the mind along useful and uplifting lines. The Baxter boys are ready to do their part if we can find a few public spirited men and women who will devote a little time and attention to the matter of getting the national organization interested in the organization of a company here. Who will take the matter in hand?

The big railroad strike that was to have begun on Labor day was called off Saturday when congress passed a bill making eight hours a days work on all railroad trains used in interstate commerce. Had this strike taken place the business of the entire country would have been paralyzed. Millions of people would have gone hungry. This calamity was averted by the prompt and determined work of our president, Woodrow Wilson. He wasn't afraid of the money kings. He didn't hesitate. The very life of the nation was at stake and he acted quickly and saved the day. It cinches his re-election and it ought to.

A. H. Cobb Makes Statement

Takes Pleasure in Recommending Great System Tonic.

Laying aside the fear of being deceived just one more time and taking the statement of a few good friends for what they were worth, Mr. A. H. Cobb, of Clarksville, Tenn., now takes pleasure in telling suffering people of "Hays' Specific," the great system tonic, which is now for sale in our community.

In a letter Mr. Cobb says: It is a pleasure for me to recommend "Hays' Specific." I have been suffering from malaria for some time and after taking about two-thirds of a bottle, I was cured of same and have not felt any effects of it since. I truly believe it to be the best medicine I have ever used for malaria.

It is with pleasure that we announce that this great system tonic can now be secured from M. E. REDDY.

Again the youth of our community are back in school and preparing themselves for the duties of life. A few years hence they will be bearing the burdens of the community that are borne by us today, and it is incumbent upon us to see that they are in every way fitted to cope with the many and intricate problems that will confront them. Education is a modern necessity. It is no longer a luxury reserved principally for the rich. It is just as essential that the mind of the farmer be developed to the utmost capacity as it is for the merchant or the doctor or lawyer. Each branch of industry is dependent in great measure on the success attained by other branches. No longer can we "go it alone" as our forefathers did in good old days. Hence, if we would have our children successful in life it is necessary that we afford them every opportunity to acquire the education that is the first requisite to such achievement. Keep the public schools in mind, encourage the teachers by your personal interest and support, and commend the children in their efforts to meet your expectations. Speak the good word that breeds ambition in the breast of teacher and pupil alike and begin the speaking today.

Are You Looking Old?

Old age comes quick enough without inviting it. Some look old at forty. That is because they neglect the liver and bowels. Keep your bowels regular and your liver healthy and you will not only feel younger but look younger. When troubled with constipation or biliousness take Chamberlain's Tablets. They are intended especially for these ailments and are excellent. Easy to take and most agreeable in effect. Obtainable everywhere.

Prince Albert gives smokers such delight, because

—its flavor is so different and so delightfully good;
—it can't bite your tongue;
—it can't parch your throat;
—you can smoke it as long and as hard as you like without any comeback but real tobacco happiness!

On the reverse side of every Prince Albert package you will read:

"PROCESS PATENTED JULY 30th, 1907"

That means to you a lot of tobacco enjoyment. Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

PRINCE ALBERT

the national joy smoke

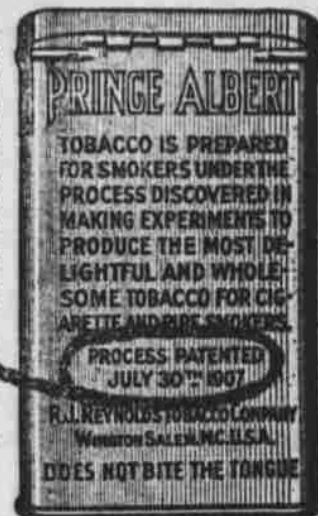

YOU'LL find a cheery howdy-do on top no matter how much of a stranger you are in the neck of the woods you drop into. For, Prince Albert is right there—at the first place you pass that sells tobacco! The tippy red bag sells for a nickel and the tidy red tin for a dime; then there's the handsome pound and half-pound tin humidor and the pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such bang-up trim all-the-time!

in goodness and in pipe satisfaction is all we or its enthusiastic friends ever claimed for it!

It answers every smoke desire you or any other man ever had! It is so cool and fragrant and appealing to your smokeappetite that you will get chummy with it in a mighty short time!

Will you invest 5c or 10c to prove out our say-so on the national joy smoke?

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

This is the reverse side of the Prince Albert tidy red tin. Read this "Patented Process" message—to you and realize what it means in making Prince Albert so much to your liking.

The United States government should own all the oil, mineral, water rights and other natural resources in the land and derive revenue from such. But it doesn't. The greater part of its natural resources have been stolen and given away and mostly under Republican rule. The Wilson administration has done much to conserve what is left that the nation's posterity may all share in the wealth produced instead of letting it be handed over to a favored few. These few object strenuously to Wilson's conservation policy, but the public is satisfied.
